Friendly advice:

Please carry a map. Although the routes are marked, occasionally markers and signs are removed, so route-finding is also your responsibility.

We have measured both routes to the best of our ability, but running apps and watches rarely agree so it is possible that your device may show a different reading, so please treat distances as approximate.

We thank all landowners for their cooperation and ask participants to be courteous and follow the Countryside Code.

Lastly, remember this is an off-road challenge and the going can get tough, so watch your step!

We're getting GREENER...

We are constantly looking for ways to make the Belvoir Challenge a more sustainable and less wasteful event. Although we still utilise some single-use plastic, this stock is gradually being replaced with reusable or compostable alternatives. If you have ideas or suggestions that might help us do even better, we'd love to hear from you! enquiries@belvoirchallenge.com
